ABOUT ME

Passionate Computer Science student deeply interested in Data Science, AI, and Machine Learning. Experienced in building data-driven solutions through national competitions and research, paired with strong public speaking and cross-functional leadership skills from managing large-scale events. Driven by a growth mindset, I actively seek opportunities to leverage my technical expertise and business skills to solve complex real-world problems.

EDUCATION

Universitas Indonesia

Bachelor of Computer Science, Faculty of Computer Science

2025 – Now

- Current GPA: 3.69/4.00
- Leadership: Teaching Assistant of Discrete Mathematics 1 at Fasilkom UI | Event Associate at Open House Fasilkom UI 2025 | Event Associate at COMPFEST 18 | Staff of BEM Fasilkom UI 2026

AWARDS

- Representative of Universitas Indonesia - Data Mining GEMASTIK 2026
- Representative of Universitas Indonesia - Big Data Challenge SATRIA DATA 2026

PROJECTS

“Towards Precision Food Self-Sufficiency (Swasembada Pangan) : Low-Resource Multimodal Fusion for Food Commodity Land Recommendation from Open Data Source”

- Leveraging pre-trained Convolutional Neural Networks (CNN) and Multilayer Perceptrons (MLP) to seamlessly integrate Sentinel-2 optical satellite imagery with comprehensive biophysical tabular data, enabling the generation of highly precise and integrated land suitability scores.
- Integration of WorldCereal agricultural activity data and Sentinel-1 radar imagery synthesizes robust presence labels to mitigate the absence of public datasets, optimizing model training via weighted binary cross-entropy to effectively address class imbalance.
- Continued evaluation utilizing spatial cross-validation ensures system reliability across novel regions, while cutting-edge XAI frameworks (SHAP and Grad-CAM) validate agronomical accuracy by identifying critical biophysical limiters and highlighting essential agricultural infrastructure.

“Waste Classification: Organic, Recyclable, and Electronic Waste Detection using DINOv3 with Advanced Data Cleaning and Post-Processing”

- Leveraging the pre-trained DINOv3 vision transformer as a robust feature extractor, fine-tuned to accurately classify waste images into organic, recyclable, and electronic categories, achieving a macro F1-score of 99.6238 on the evaluation set.
- Implementation of rigorous data cleaning pipelines, including duplicate removal, mislabeled sample correction, and noise filtering to enhance dataset quality and reduce label inconsistency prior to model training.
- Application of post-processing techniques on model outputs to refine prediction confidence and correct residual misclassifications, further boosting overall classification precision and ensuring robust generalization across waste categories.

EXPERIENCES

Teaching Assistant - Fasilkom UI

July 2026 - Now

Teaching Assistant of Discrete Mathematics I

- Facilitated the teaching and learning process by assisting in lesson preparation, guiding students through complex discrete mathematics concepts, and evaluating academic performance through assignments and exams.
- Mastered fundamental discrete mathematics theories, including propositional logic, set theory, and combinatorics, while honing skills in delivering clear, effective, and structured academic instruction.

BEM Fasilkom UI

May 2026 - Now

Staff of Academic Department

- Served as the Person in Charge (PIC) for *Sekolah BEM Fasilkom* (SBF), an onboarding and educational program designed to facilitate 12-20 (expected) new students in learning about the organization.
- Supervised and evaluated the performance of interns within the program, providing guidance and monitoring their project-based learning assignments.

Compfest 18

Apr 2026 - Now

Event Associate

- Selected as Person in Charge (PIC) for the Seminar and Workshop at Xcelerate Batch 2, leading concept creation and speaker/partner outreach (approaching).
- Coordinated cross-functional operations across multiple teams, including Marketing, Operational, and IT Development, to ensure seamless event execution.

ARUNG Fasilkom UI

Jan 2026 - Now

Head of Finance

- Served as Head of Finance for *ARUNG*, the executive board representing Fasilkom UI Class of 2025.

Open House Fasilkom UI

Aug 2025 - Dec 2025

Event Associate

- Served as Person in Charge (PIC) for a fun coding event with 2,700+ registrants, managing participant relations and cross-team coordination.
- Served as Person in Charge (PIC) for a parents' talk show with 100+ registrants, leading end-to-end event planning and execution.

Coding Club SMONE4U

Aug 2024 - Dec 2024

Co-Founder & Coding Tutor

- Co-founded the first student-led coding organization (NGO) at SMAN 1 Manggar alongside a faculty advisor, establishing a platform that continues to run and mentor students today.
- Recruited and mentored 30+ active members in the competitive programming division, building a strong foundation for school tech talent.
- Taught core programming fundamentals and logic using C++, equipping members with essential problem-solving skills for coding competitions.

SKILLS

- **Hard Skills :** HTML, CSS, Python, C++, Java, Machine Learning, Computer Vision, PowerPoint, Word, Canva.
- **Soft Skills :** Tutoring, Team Management, Team Leadership, Public Speaking, Problem Solving
- **Languages :** Fluent level or native language in Bahasa Indonesia; Working proficiency in English.
